

ParaGONE\* is a 15-day broad-spectrum anti-parasitic, antimicrobial, and antifungal herbal cleansing program.

It contains herbs and extracts that are widely used to eradicate nematode (visible parasites) and microbe (microscopic parasites).

It also contains antifungal herbs and extracts that are known to eliminate yeast/fungal organisms from the body.

Anti-parasitic herbs rid the body of parasites in 2 different ways; One group of herbs works by paralyzing the organism that are lurking in the gut, allowing the body to remove it through the bowel. Another group of herbs works by directly destroying the organism and can act beyond the gut itself.

ParaGONE is a formulation for cleansing parasites from the body, but is also powerful enough to eliminate yeast (candida), as candida often co-exists with parasites.

### **PROTOCOL FOR TAKING ParaGONE**

**STEP 1** in the morning on an empty stomach (30 minutes before eating)

Take 2 capsules of ParaGONE 1 and 1ml of ParaGONE 2 with a glass of water

**STEP 2** in the evening on an empty stomach (2-3 hours after eating).

Take 2 capsules of ParaGONE 1 and 1ml of ParaGONE 2 with a glass of water

Take for 15 days, followed by a 5 day rest period, and then continue for an additional 15 day period as required and to ensure that any parasite larvae are also destroyed.

If you weigh less than 150 lb or are sensitive to medication in general, you may wish to take half the suggested dosage for 15 days (take only the evening dosage), followed by a 5 day rest period, and then continue for an additional 15 days at half the suggested dosage.

***For best results a parasite cleanse is best followed in combinations with a weekly colonic for the 4 weeks duration of the programme***
